

# LOVE YOUR HEART *Better!*

## CELEBRATING ONE YEAR IN YOUR COMMUNITY!

It was just a year ago that we invited you to love your heart better and be proactive. Today, we cherish the trust you place in our expertise and commend you for taking the initiative to care for your health better. Northwest Medical Center remains the only Cardiac Level II licensed program in Northwest Broward County. Our facilities have open heart operating room suites, a cardiovascular intense care unit and a cardiovascular progressive care unit along with renowned surgeons and experienced, top-notch staff. As we celebrate our one year anniversary of the Heart and Vascular Institute at Northwest Medical Center, we want you to know, **we will always love your heart better.**
